

Cafe Jung: An Exploration of the Trickster Archetype

A Zoom Presentation and Discussion
led by Geneva Johnson and Charles Card

Friday, February 5, 2021

7:00-8:30 PM

Because of current Provincial COVID-19 restrictions, the C.G. Jung Society of Victoria is hosting an informal, 'cafe-style' Zoom gathering to reach out to our membership and to others with shared Jungian interests.

On February 5 from 7:00 to 8:30 we will explore the Trickster archetype as it is represented in myths, folktales and art found around the world and over many centuries and as it continues to appear up to the present time. Portions of an audio recording made by Jungian analyst Robert Moore will help to frame the psychological aspects of the Trickster archetype, along with a selection of other multimedia resources.

Participation is without charge. To receive a Zoom invitation for the event, please send your request to JungSocietyVictoria@gmail.com
